(1) Explanation of Operating Results

(Business Environment)

During the three-month period ended June 30, 2023, the global economy saw the impact of COVID-19 weaken, but the outlook is uncertain due to the economic downturn caused by rising energy costs resulting from Russia's invasion of Ukraine, the acceleration of global inflation, and an increase in interest rates.

In the Japanese economy as well, the outlook continues to be uncertain due to the slowdown in the overseas economy becoming a downside risk for the domestic economy amid continuing global monetary tightening in addition to rising commodity prices, semiconductor supply shortages, and rising raw material prices.

In terms of profit and loss, operating loss came to 309 million yen (operating loss of 174 million yen in the same period of the previous fiscal year) due to the rise in the price of lead, a major raw material, and energy costs. Profit attributable to owners of parent came to 429 million yen (loss attributable to owners of parent of 127 million yen in the same period of the previous fiscal year) as a result of recording a gain on revision of retirement benefit plan of 857 million yen due to the transition from the previous defined benefit corporate pension plan to the defined contribution pension plan.
