1. Qualitative Information on Consolidated Financial Results for the Six-month Period

(1) Explanation of Operating Results

(Business Environment)

During the six-month period ended September 30, 2023, the global economy experienced soaring energy costs caused by Russia's invasion of Ukraine, a slowdown in the real estate market in China and monetary tightening in Europe and North America, and thus its outlook is uncertain mainly due to the downside risks on economic activities from those factors.

In the Japanese economy as well, the outlook continues to be uncertain due to the slowdown in the overseas economy becoming a downside risk for the domestic economy amid concerns for the future of the Chinese economy and continuing global monetary tightening, despite socio-economic activities getting back to normal following the reclassification of COVID-19 to a class 5 infectious disease. Other factors contributing to the uncertainty include the soaring prices of raw materials and energy costs.

(Operating Results)

The Group recorded net sales of 32,430 million yen for the six-month period ended September 30, 2023, an increase of 2,600 million yen year on year. Overseas sales were 13,434 million yen and accounted for 41.4% of total sales.

In terms of profit and loss, operating profit came to 42 million yen, increasing by 423 million yen year on year despite the rise in the price of lead, a major raw material, and energy costs. Ordinary profit came to 164 million yen, owing to an improvement of 395 million yen year on year as a result of foreign exchange gains, despite increased costs such as interest expenses.

Profit attributable to owners of parent came to 594 million yen, increasing by 823 million yen year on year as a result of recording a gain on revision of retirement benefit plan of 857 million yen due to the transition from the previous defined benefit corporate pension plan to the defined contribution pension plan on June 1, 2023.

The main factors leading to the increase in current assets were increases in merchandise and finished goods and work in process.

There was an 898 million yen increase from the end of the previous fiscal year to 24,789 million yen in property, plant and equipment in non-current assets. The main factor leading to the increase was capital investment.
