### **Furukawa Battery Health and Productivity Management Declaration formulated - Promotion of "Health and Productivity Management" that Strategically Promotes Employee Health Promotion -**

- Furukawa Battery will promote "Health and Productivity Management" in which employees' health management is considered from a managerial perspective and tackled strategically.
- Based on "Health and Productivity Management Declaration" formulated, we will accelerate company-wide efforts to promote employees' health.

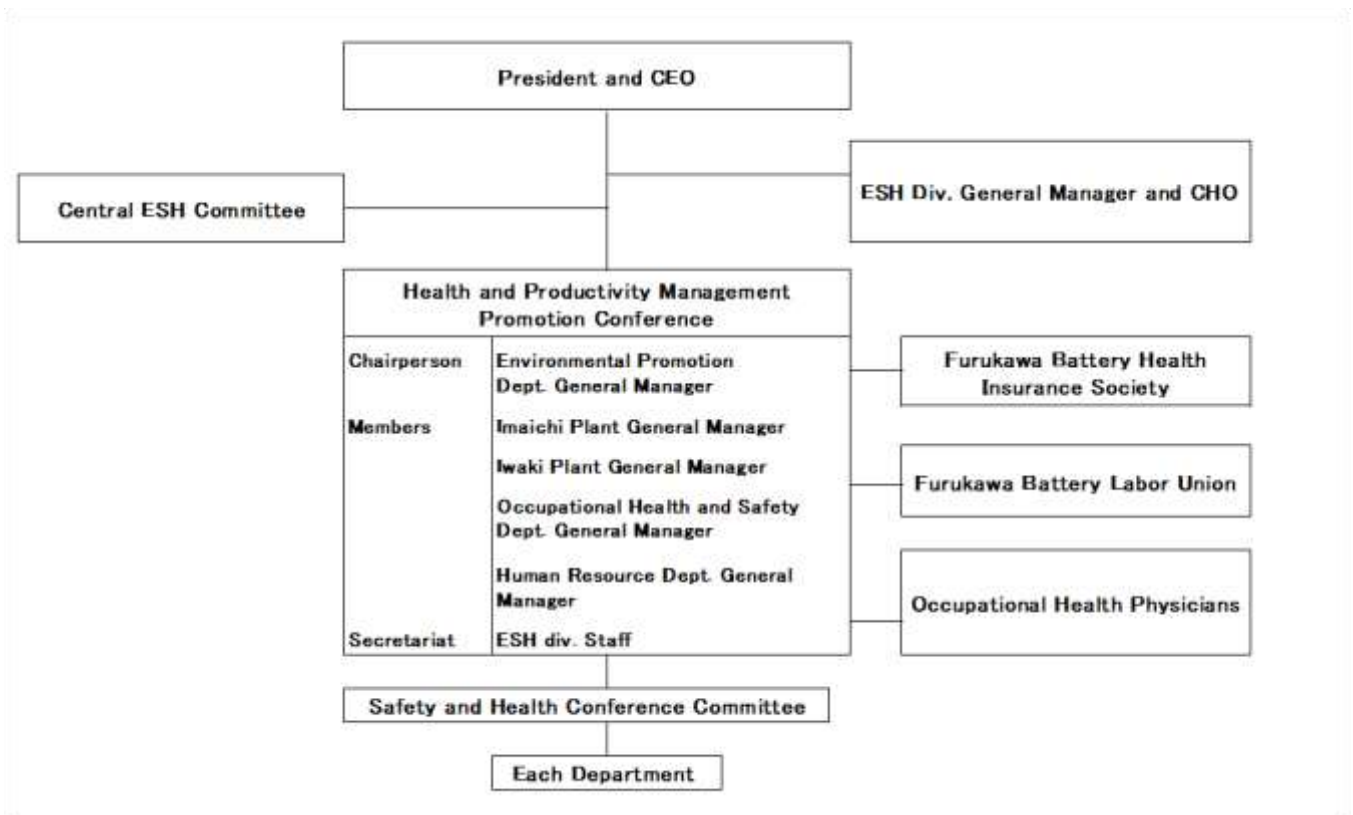

The Furukawa Battery. Co., Ltd (Head Office: Hodogaya-ku, Yokohama City, President and CEO: Shinichi Ono, hereinafter "Furukawa Battery") has long focused on health promotion activities to realize health management based on the belief that "the health of employees is the foundation of Furukawa Battery." To this end, we have been conducting regular health checkups and stress checks for employees, taking measures to prevent long working hours, restricting smoking during working hours, and engaging in dialogues with occupational health physicians. We have recently formulated "Furukawa Battery Health and Productivity Management Declaration" and will more vigorously promote health and productivity management. At the same time, by establishing "health and productivity management promotion system", we will further expand our past health and safety activities and accelerate company-wide efforts to promote employees' health.

## Furukawa Battery Health and productivity Management Declaration

The Furukawa Battery. Co., Ltd has made "the health of our employees is an important foundation" a management issue and has been working on it as part of our health and safety management. Going forward, we will strengthen industrial health by promoting activities that are conscious of health management.

We recognize that the mental and physical health of each and every employee is fundamental to fulfill our guiding principle "We are the Challenger." We will give first safety and health in all areas and strive to become a company in which "everyone can continue to work with enthusiasm and take on challenges."

## Furukawa Battery Health and Productivity Management Promotion System

Furukawa Battery is taking on the challenge of achieving the Sustainable Development Goals (SDGs) adopted by the United Nations through its business activities. The promotion of health and productivity management recognizes that it contributes to the achievement of SDGs goals 3. "Good Health and Well-Being" and 8. "Decent Work and Economic Growth." We aim to create a workplace where each and every employee can continue to work with peace of mind while maximizing their capabilities.
